OFFICIAL MINUTES OF MEETING & CLIENT TECHNICAL SPECIFICATIONS

CIIM 2026 Website Review & Change Requests

Meeting outcomes and structural action points based on client review call and live portal evaluation.

PROJECT & EVENT	CLIENT ORGANIZATION	DEMO WEBSITE URL	TARGET DELIVERY
CIIM 2026 Conference Portal	**Prashanth Fertility & Research**	**lively-mousse-e6095b.netlify.app**	**Tonight, 11:30 PM – 12:00 AM**

1. Executive Summary & Meeting Purpose

A comprehensive review of the live demonstration website (**https://lively-mousse-e6095b.netlify.app/**) was conducted between the client representative and the technical development lead. The client confirmed approvals for conference agenda modules, date schedules (Nov 21–22, 2026), and Leela Palace venue details, while outlining mandatory corrections regarding organizational branding, committee memberships, registration pass simplification, sponsor hierarchy, and automated WhatsApp ticketing.

2. Hero Section, Header & Organizational Association

The conference is being held in formal association with **TAPISAR** (Tamil Nadu & Pondicherry Chapter of the Indian Society for Assisted Reproduction). The live portal currently omits this core partner in prime positions.

MANDATORY BRANDING UPDATES:

- **Hero / Header:** Prominently position the TAPISAR official logo in the top navbar and hero banner alongside the CIIM 2026 masthead.
- **Official Conference Title:** Update primary banner headline to: *"CIIM 2026 — In association with TAPISAR"*.
- **Footer & Partners Section:** Replace generic labels like *"In collaboration with"* with *"In association with TAPISAR (Tamil Nadu Pondicherry Chapter of ISAR)"*.

3. Faculty, Speakers & Committee Rectifications

Several profile images on the live website show visual degradation due to automated upscaling. In addition, committee designations require immediate alignment with the master roster.

Element / Individual	Current Website State	Client Directed Rectification
Expected Speakers (3 Faculty)	Low-resolution, stretched square cards with visible blur	Search Google for original high-res portraits. If unavailable, adapt layout into **circular/round avatars** or compact banners to preserve visual clarity.
Dr. Geetha Haripriya (Organising Chairperson)	Photo position and vertical alignment misaligned	Developer to replace with newly fetched high-definition portrait from web and correct container alignment.
Dr. Samhitha Moturi (Organising Secretary)	Displays generic "SM" placeholder initials avatar	Upload official portrait provided by client. Explicitly update designation to reflect **Director, Prashanth Fertility**.
Dr. Subhashree & Dr. Shobhana	Currently assigned under Scientific Committee	Cross-verify against client master Excel sheet. Reallocate both doctors to the **Organising Committee** as directed.

4. Registration Passes & Workflow Streamlining

The client directed a substantial reduction of friction in the delegate registration pipeline. Categories that do not apply to this standalone academic event must be purged immediately to prevent user confusion.

STEP 01	STEP 02	STEP 03	STEP 04	STEP 05
Select Pass	**Doctor Reg. No.**	**Doctor Details**	**Postal Address**	**Sponsor Coupon**
Regular Delegate or PG Student	Medical Council Reg. Number	Title, Name, Mobile, Email	City, State, Country (incl. Mauritius)	Validate pass & instant QR dispatch

5. Registration Form Field Modification Matrix

Specific field-level rules were finalized during the review call. Any profile collection that burdens practicing physicians must be eliminated.

Form Section / Step	Action	Specification & Validation Requirements
Pass Selection	REMOVE 2	**DELETE:** "Non-IFS Member" (IFS is a national body; membership is not mandatory) and "Full-Day Workshops" (CIIM is a unified conference, not a workshop). **RETAIN ONLY:** *Delegate – Regular* and *PG Student / Resident*.
Doctor ID / Reg.	ADD FIELD	Replace the redundant "Registration Category" dropdown with an open input for **"Doctor's Medical Council Registration Number"**.
Personal Details	MODIFY	Title (Default: Dr.), First Name (Required), **Last Name (Optional — DO NOT make mandatory)**, Gender (Retain), Mobile Number & Email Address (Strictly mandatory for ticket delivery).
Institutional Profile (Former Step 3)	DELETE STEP	**REMOVE ENTIRE STEP:** Private practitioners and clinic owners do not fit institutional/hospital hierarchies. Drop institutional name, department, and designation fields.
Correspondence (Former Step 4)	UPDATE	Retain Address, City (e.g., Chennai, Kanchipuram), State, Pincode. In the Country dropdown, **ENSURE MAURITIUS IS ADDED** alongside India, Sri Lanka, Maldives, and Bangladesh (Prashanth Fertility operates a Mauritius center).
Accompanying Person (Former Step 5)	DELETE STEP	**REMOVE ENTIRE STEP:** CIIM 2026 does not offer accompanying person registrations.
Sponsor Pass Validation (Former Step 6)	RETAIN CORE	Retain Sponsor Coupon Code input. Valid coupon code waives pass fee (100% discount) and confirms delegate registration instantly.

Summary of Streamlined Delegate Flow: Select Pass (Regular/PG) → Enter Medical Reg. Number → Enter Contact Information → Enter Postal Address → Enter Sponsor Coupon → Registration Complete & Instant Pass Issued.

6. Sponsor Hierarchy, Branding & Content Removals

Sponsor Tiers & Logos

• **Title Sponsor:** Replace text with the official Prashanth Fertility Clinic logo (retrieved from the WhatsApp group assets).
• **Rebrand Tier:** Replace "Platinum Sponsor" with **"Main Sponsor for the Conference"**.
• **Top Priority Sponsor:** Position **Nivyan** as the #1 main sponsor (highest contributor), followed strictly by the sequence in the client list.
• **Format:** Normalize logos to uniform compact dimensions.
• **Filter Minor Sponsors:** Omit the 19–20 peripheral sponsor logos to maintain clean editorial layout.

Exhibitor & FAQ Purge

• **Exhibitor Block:** Delete the *"Put your brand in front of key decision makers"* commercial banner entirely.
• **FAQ Policy Removal:** Remove the *"What is the cancellation and refund policy?"* question (admissions are coupon-based; no refund processing needed).
• **Accommodation Note:** Clarify that delegate accommodation is not provided.
• **Helpdesk Contact:** Update the contact number in the *"Still have a question?"* section to **Kavya's direct mobile number**.

7. WhatsApp API Integration & Automated QR Ticketing

AUTOMATED DISPATCH ARCHITECTURE (SUNDARAM SIR's API):
Upon entering a valid sponsor coupon and clicking submit, the backend must instantly generate an individual scannable **QR Code Ticket** and trigger two automated notifications simultaneously: (1) An official confirmation email with pass details, and (2) An instant WhatsApp message containing the formal invitation letter and unique entry QR code. Live end-to-end integration and dispatch tests will be run tonight.

8. Action Items, Responsibility Matrix & Midnight Timeline

Action Item & Deliverable	Owner / Assignee	Target Deadline	Execution Status
Header: Insert TAPISAR Logo & update title wording	Frontend Dev Team	Tonight, 11:30 PM	IN PROGRESS
